SKILLS

- Languages:** C++, Java, C, Python, Kotlin
- Frameworks:** HTML and CSS, Jetpack Compose, Scikit-Learn
- Tools/Platforms:** MySQL, Android Studio
- Core Competencies:** Data Structures & Algorithms, Machine Learning, Android Development, OOPs
- Soft Skills:** Problem-Solving, Team Player, Quick Learner, Adaptability

PROJECTS

- Advanced Customer Segmentation:** [GitHub](#)
August 2025
- Synthesized raw consumer data into behavioral clusters by engineering an unsupervised ML pipeline using Scikit-Learn.
 - Pioneered the use of Principal Component Analysis (PCA) to reduce data dimensionality, optimizing model training speed without sacrificing variance.
 - Extracted critical marketing insights that increased segment classification accuracy by 25%, enabling hyper targeted promotional simulations.
- Tech:** Machine Learning, Python, Neural Networks
- Pollution Level Categorization using K-Nearest Neighbor:** [GitHub](#)
April 2025
- Developed a predictive model to categorize air quality and pollution levels based on environmental sensor data using the K-Nearest Neighbors (KNN) algorithm.
 - Performed comprehensive data preprocessing, including handling missing values and feature scaling, to ensure the distance-based algorithm functioned accurately.
 - Evaluated model performance using metrics such as Accuracy, Precision, and Recall to optimize the value of k and minimize classification errors.
- Tech:** Python, scikit-learn, Pandas, NumPy, Machine Learning

TRAINING

- AI Powered NLP: AlgoTutor Academy |** [Certificate](#)
- Gained foundational to intermediate proficiency in key NLP and GenAI concepts, including LLM architectures, prompt engineering, embeddings, RAG workflows, MCP Servers, and web-scraping techniques.
 - Applied these concepts in practical implementations, developing end-to-end AI components and tools with Python and modern language-model frameworks.
 - Engineered an AI News Agent project that integrates live data retrieval, intelligent summarization, and personalized content delivery, demonstrating strong understanding of real-world AI application design.

CERTIFICATES

- Cloud Computing | NPTEL [Certificate](#) April 2025
- Data Structure and Algorithms | I am Neo [Certificate](#) December 2024
- Unrevealing Basic Python towards ML/AI | CSEPATHSHALA [Certificate](#) March 2024

ACHIEVEMENTS

- Solved 100+ DSA problems on LeetCode February 2026
- Ranked in Top 10 out of 2,500+ participants in the code-A-Hunt Hackathon February 2024

EDUCATION

- Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; **CGPA:7.96** Since August 2023
- Narayana Group of Institutions** Madhapur, Hyderabad
Intermediate; **Percentage:96** April 2021 - March 2023
- Narayana Group of Schools** Kalur, Tirupati
Matriculation; **Percentage:99** April 2019 - March 2021
